

JOB ANNOUNCEMENT

POSITION: LICENSED CLINICAL SUPERVISOR

Site / Location: Bayshore Navigation Center, 125 Bayshore Blvd., San Francisco, CA;
other sites as needed

Reports to: Assistant Director of Navigation Services

The Bayview Hunters Point Foundation in collaboration with Five Keys Schools and Programs will be operating the Bayshore Navigation Center.

Navigation Center

The goal of the Navigation Center is to provide a warm, welcoming environment of support and services tailored to the unique needs of San Francisco's homeless population living on the streets. The Center will be operated differently than the existing San Francisco single adult shelter system in that it will be low-threshold with minimum rules and requirements in order to attract the most hard to serve homeless who usually refuse to navigate the existing shelter system.

Up to 128 homeless single adults and couples without children will be accommodated at the Navigation Center located at 125 Bayshore at any given time. This one-stop center will provide short-term stays based on harm reduction principles with the objective of providing intensive services leading to housing or treatment exits as quickly as possible.

This environment will be unique in that it will be developing trusting relationships with people that have lived on the streets and don't usually enter shelter. It will be a low threshold, minimal rule environment with a harm reduction focus.

GENERAL DESCRIPTION:

This position is responsible for the coordination of client services and case conferences as well as providing direct clinical supervision to care managers. The ideal candidate will possess experience in the fields of mental health, or other related fields. Strong working knowledge of psychodynamics, group work, case work, health systems and human development.

EXAMPLE OF DUTIES:

Receives and provides referrals from other agencies and professionals and handles initial contact with clients. Provides clinical supervision for unlicensed clinical staff.

Develops and maintains linkages with services providers

May conduct intake interviews and carries out related procedures, including initial diagnosis and disposition and referral out if indicated. Completes appropriate forms and documents. Requests relevant information from collateral sources.

Conducts comprehensive diagnostic studies of clients. On a selective basis, arranges for additional evaluations, including medical, neurological, psychological, educational, speech and language.

Provides advocacy; linkage with community resources; assist with maintenance and expansion of social network and monitors client's re-entry into society.

Develops and periodically reviews individual treatment plans.

Performs crisis intervention when needed, active participant in program's clinical case conferences.

Collaborates and consults with collateral sources. Advocates for clients' needs.

Performs related duties as assigned or required.

MINIMUM QUALIFICATIONS:

Requirements: Licensed LCSW/MFT. Requires at least five years clinical experience and expertise working in mental health setting for the chronically mentally ill. Requires broad theoretical knowledge and expertise in the practice of a variety of treatment modalities and of diagnostic and therapeutic techniques in order to diagnose and solve problems in psychotherapeutic work adults and their families. Requires skill in effecting and maintaining collaborative relationships with multi-disciplinary associate staff members and outside collateral sources. Requires experience working with minority populations. Requires knowledge of the ethnic, economic and social factors affecting the residents of the neighborhood served by the program.
